02 Event Management

The user manages events using the map interface and the **Events** button in the Action Panel.

EVENT ICONS

Severity	Incident	Delay	Planned	Active Planned	Other
1 (green)				Sur	Weather
2-3 (yellow)	0		E	A	
4-5 (red)	1		P	A envit	

EVENT OWNERSHIP

Event badges on the icon indicate event ownership: blue for you, gray for others.

You must own an event to manage it. Change ownership by right clicking an event and selecting **Own** or **Disown**.

Owned by you

Owned by another

EVENT LISTS

To choose a list of events to review, right-click the **Events** button in the Action Panel. You can list scheduled, active, or all events to find and manage them.

You can also add an event to this menu.

Scheduled I	Events	
Active Even	ts Product

CREATING EVENTS

To add an event from a point on the road:

- 1. Right-click the **location** of the event.
- 2. Roadways near the location are listed. Choose the affected roadway.
- 3. A dialogue box appears. Choose the Event Type
- 4. Click Add Event.

Select Koadway	Solocted Poodway Information	
WIS 89 North (2) WIS 89 South	Location: WIS 89 North 0.51 miles after County (County) 0.19 miles before Mansfield R	South (Jefferson
Select Unmanaged Roadway	Lane Config: TT Mile Marker: 31.4	
WI-89	Upstream Camera: Downstream Camera:	
Mansfield Rd Unmanaged Roadway	Event Type: Incident V Add E	vent Cancel
Location		

Populate primary event details:

- 5. An event window appears. Select the **Cause** & reporting **Source** and estimate a **Duration** (if any). Add as much information as you can.
- 6. If the incident affects a stretch of roadway, adjust the drop boxes under **Location: End** to reflect that.
- 7. Select Lane Blockage by clicking on lanes. An **X** represents a closed lane. Severity is auto calculated based on the number of lanes blocked.
- 8. Add comments to the event and click **Save** in the comment area.
- 9. Click Save at the bottom of the window to save the event.

Complete event creation:

- 10. Click **Additional Info** and add or modify event information, including emergency Responders, Vehicles Involved, Road Conditions, and Injuries.
- 11. Click Response to review and deploy the default response plan. (See Quick Reference 03)
- 12. More buttons at the bottom include:
 - a. Reverse Event: add a new event with similar characteristics on the direct opposite side of the roadway.
 - b. **Combine**: select another event and use one response plan for both.
 - c. **Clear**: Remove all response plans from this event.
 - d. **Disown**: release ownership of the event.

PLANNED EVENTS

To add an event from action panel:

- 1. Right-click on the Event icon on action panel and select Add Event.
- 2. Select Event Type as Planned from the dropdown.
- 3. Click Add Event.

- 4. Select affected roadway from dropdown.
- 5. Select Cause and Source.
